WHAT’S NEW IN MINDMANAGER 2019 VERSION 19.1.198

New languages
- Spanish
- Dutch

Keyboard Shortcut Enhancements
- New options to customize how many levels are shown when pressing F3 (Focus on Topic)

HTML5 Export
- Default export options can now be set in MindManager Options.

Background Objects
- Objects now use the same measurement units as set in MindManager Options.
- Objects can now be aligned with topics.

Export
- Microsoft Project
  - New option to save directly to Project XML format.

MindManager Help
- Help in Russian is now available.
USABILITY & PERFORMANCE IMPROVEMENTS

User Interface
- The ribbon menu has been updated with colorful icons to improve differentiation and aid in recall when looking for specific commands.
- Redesigned Design tab – Make high level design changes to your files quickly and easily using the new Layout and Themes galleries available on the redesigned design tab.
- New Format Tab – Fine tune the look and feel of your design with the revised format tab, access powerful formatting options including a new Defaults section giving you more control over setting and resetting formatting defaults.
- Enhanced Format Painter – New commands allow you to quickly copy existing formats to siblings, descendants, and/or all topics with one click.
- Access hundreds of new icons from the Icon button in the Ribbon.
- Revised Format Topic Dialog – Combines Font and Topic formatting options into one dialog.
- Many more UX improvements like: Improved margin editor for custom shapes, Drag and drop callouts to attach them to other topics, Easier selection and movement of Shapes, Focus on Topic improved, Topic Alert added to the Task tab, Consolidated map settings, and many more…

Enhanced Document views
- Document Views are now saved so the next time you open the file you’re right back to where you were.
- Collapse the uncategorized column in Schedule, Icon, and Tag views quickly with one click.
- Customize columns in Icon and Tag view more easily with intuitive controls to reorder columns via drag and drop and click column titles to rename or delete them.

New Content
- 40+ all new themes ranging from professional to stylistic designed to bring visual flair to your maps in MindManager 2019.
- 500+ new and enhanced icons across many categories like Charts, Arrows, Traffic Signs, Feedback, and more.
- All new templates showcasing SmartRules that automatically change topic meta data based on changes you make; plus, new diagram types that were previously not possible.

Planning with Effort
- Improved Effort Calculation - Effort is now calculated based on resource load and duration.
- Effort is now enabled by default.
