

Declaration of Compliance with German Export Control Regulations

I am aware that scientific results obtained through the use of supercomputers may be subject to European export control regulations.

I therefore assure that I will not misuse the resources made available to me, especially for research on the following topics:

- NBC (nuclear, biological, chemical) weapons
- Missiles and unmanned aerial vehicles
- General reference to weapons, ammunition or armaments
- Construction or operation of nuclear facilities
- Special goods for the interception of communications
- Goods that could be used for capital punishment, torture or other cruel, inhuman or degrading treatment

I will not export confidential knowledge or technology subject to export control in any form (documents, personal communications, presentation, e-mail, Internet, cloud computing, . . .).

The constitutionally protected freedom of generally accessible basic scientific research and teaching is not affected.

Basic scientific research is experimental or theoretical work aimed at gaining new knowledge about general principles of phenomena or facts that is not primarily aimed at a specific practical goal or benefit. (Federal Office of Economics and Export Control (BAFA) Information brochure on export control in research and science).

In the event that a project member is a national of a country subject to an arms embargo, I certify that the results of the project research are not related to a military use within the meaning of Article 4(1) of Regulation of the European Parliament and of the Council (EU) 2021/821 and its amendments, available at the following link:

https://www.bafa.de/SharedDocs/Downloads/EN/Foreign_Trade/afk_eu_dual-use_reg_annex_ii.html

I have reviewed the applicable export control regulations at

- <https://www.bafa.de/DE/Aussenwirtschaft/Ausfuhrkontrolle/Rechtsgrundlagen/rechtsgrundlagen.html>
- <https://www.bafa.de/DE/Aussenwirtschaft/Ausfuhrkontrolle/Embargos/embargos.html>

and affirm that I will not violate any existing embargo provisions with the results of my project.

I will inform the Leibniz Supercomputing Center of the Bavarian Academy of Sciences and Humanities and the Master User responsible for me about any relevant change in the current research topic.

Name, First Name: _____
